## Smoker's Post - Ash Receptacles

### OTHER AVAILABLE FINISHES

### INDOOR / OUTDOOR Smoker's Post

At last! A sleek, stylish and durable solution for cigarette disposal. Completely weatherproof, wind proof and fireproof, this collection of solid 1/8" thick seamless aluminum receptacles has a large capacity and is easy to empty due to a smartly designed security locking system. Satin brass models cannot tarnish and, therefore, never need polishing. Permanent Mount and Wall Mounted models are complete with all mounting hardware. Floor models have a heavy weighted base for extra stability. Table top models are exceptionally beneficial in outdoor seating areas. They conceal odors and prevent the wind from blowing debris onto the table and guests. All models have an internal cigarette snuffer panel to extinguish cigarettes and cigars.
